KEY TO ANNOTATIONS

1. Three possible OSA Class PTFG alongside quay (LOA of each approx 120').
2. Unidentified small vessel on shore in parallel position to possible KOMAR Class PTG (annotation 3, below).
The small scale of this photography precluded the establishment of the bow and stern end-points. See annotation 1, [REDACTED]
3. Two possible KOMAR Class PTG in tandem on shore (apparent LOA of each approx 80').
Presence of possible missile launchers contributed to this identification. See annotation 1, [REDACTED]
4. Unidentified barge-like vessel moored alongside quay (LOA approx 310').
It cannot be determined whether topside imagery equates to super-structure or cargo.

NOTE: All measurements have been made by the CIA/IAD project analyst.
